BROKERS HOPE TURN IN LONG DECLINE HAS COME.

Kuehn, Loeb & Co., J. P. Morgan & Co., and Standard Oil Interests Buy Heavily.

down to Wall street to-day expecting a demoralized broak in prices met with a surprise, as vigorous support was forthming from the most powerful financial interests in the country and was steadily offered throughout the day. The market closed active and strong and at the best were the general rule throughout the list, vania and Amalgamated Copper rising 3% and Union Pacific, Atchison, Louisville, Rock Island, Metropolitan Street Railway, Brooklyn Transit and People's Gas from s to Ph. The expectation of the further slump to-day was founded on the demoralized tons of Pennsylvania and the resulting unsettlement of the whole list last night. This influence was supplemented by the further decline in British consols to-day to a new low level. As the course of this premier British security has kept pace with our own market on the downgrade, reflecting the same condition of overextension of capital in certain lines, causing the necessity for drastic liquidation elsewhere, the opening tone here was decidedly unsettled. to 3%. The expectation of the further

NEW BREAK IN STEEL The United States Steel issues made a rther brenk, the common and preferred very heavy buying orders in United Buel preferred were credited in a bway to J. P. Morgan & Co., and it

was confidently affirmed that the open buying of Amalgamated Copper by brokers usually employed by the Standard Oil usually employed by the Standard Oil party might be accepted in good faith as indicating the activity on the buying side of that party. There has been an almost superstitious feeling among the whole speculative contingent that the melting away of prices which had reached the point of a slow panic would not be checked until these financial leaders began to buy stocks largely and in concert. EFFECT ELECTRICAL

The conviction that this would happen had an electrical effect upon speculative sentiment and drove the bears to cover with a scramble. Some of the large bear speculators put out fresh short lines at different stages of the advance in the confidence that the large buying orders were assigned simply to support the market, to be resold upon any considerable advance. But there was no evidence of this reselling But there was no evidence of this reselling and the belief gained ground that the great banking interests had definitely changed their recent policy of abandoning the market to its own resources and bioing the time when the fever of seiling, which has taken hold of the security holding public should exhaust itself. It was evident at the same time that the urgent liquidation lacked the force which carried down prices in recent markets. As a result there was a marked revival of confidence and a ossipation of many of the shadowy fears which have injected the speculative mind of late with even greater effect that actual developments. The news of the day, of which there was little bearing on values, was not a factor at all in the movement of prices.

The bond market became firm in sympathy with the recovery in stocks. Total saies par value #4.886,000. United States 2s declined ½ per cent on the last call.

Wall Street Gossip. Reported by the New York Commercial Advertiser through Francis, Bro. & Co., No. 214
North Fourin street:
Now York, Sept. 29.—Foreign—In the early dealings London market was depressed by fears that the settlement would discose weak spots. Consols made a new low figure. Americans were rregular. Arbitrage houses traded beavily on both sides, probably 60,000. They bought on balance.

General Electric—The sharp rally was due to execution of moderate buying orders, under-stood to be of an investment character.

Investment Engine The odd-lot men reported a good demand in their specialities for small investors, while bond houses said they found investors, while bond houses said they found including the series of the properties of the properties in St. Paul, Pennsylvania, Geheral Electric, Manhattan and others reported that, while the bulk of the orders came from the banking-houses, many of them were for account of clients of the bankers rather than merely in the nature of supporting orders. Some of the inaurance companies were also credited with heavy purchases of standard stocks.

Pennsylvania—The strength shown in London before our market opened was due to buying by New York brokers. In the early trading here the feature was the sale of 10,000 shares by Harris, Gates & Co. and other houses and by bear traders, and the purchase of 19,000 by Lansburgh Bros., said to be for Huhn, Loeb & Co. The latter firm was said to have sent in heavy buying orders.

Brooklyn Rapid Transit—As much of the re-cent selling of R. R. T. had been by shorts, it was natural that the price should rally when the rest of the market improved. One story had it that the Boston house which was a mod-crate buyer received its orders from a New York interest interested in the Rapid Transit situation in this city.

ST. LOUIS TRANSIT MAKES LOW RECORD.

SUPPORT IMPROVES DE-SPITE THE SELLING.

Trading Outside of the Traction List Is Practically at a Standstill.

In yesterday's market for local securities the values of stocks held up fairly well under selling pressure. United Railways preferred had some support and closed unchanged, with sales at \$63.87% and \$63.75. St. Louis Transit sold off from \$16.50 to \$16, with the bulk of the trading at the low point, the lowest price at which the stock ever sold. There were buyers at \$16 at the close, and the issue was rather firmly held at \$16.12% after the decline. The 4-per-cent bonds were easy at \$78.75. Lincoln Trust, the only active bunking stock, eased off half a point to \$24.50. Brewing Association 6s at \$2.75 and Granite-Bi-Metallic at 50c were about steady.

GRAIN AND PROVISION MARKETS ARE IMPROVED.

DECEMBER WHEAT SHOWS GAIN OF 1-2C AT CLOSE.

Corn Follows in Upward Course, Aided by Short Covering-Brisk Business in Oats.

Chicago, Sept. 29.—A better tone in the stock market was reflected in the grain and provision pits to-day and prices ruled firmer. Dec. wheat closing at a gain of lec. Dec. corn was up 16014c and onts were also up 16014c, while provisions closed from 5c to 19c higher.

were also up 16014c, while provisions closed from 5c to 16c higher.

WHEAT.

Fairly active buying by some of the leaders in the wheat pit, who were influenced by the upward trend of values on Wall street, started shorts to cover early in the day, and as a result the market villed strong. Opening prices were firm on steady cables, with Dec. a shade to 16014c higher at 77c ic 775c. A good demand from all classes of buyers soon caused a raily and Dec. sold up to 775c during the first haif hour. Part of the early strength was due to the better Southwest and Northwest markets and to the excellent cash demand. Toward the noon hour there was considerable selling by pit traders, due to an increase of 7,680,000 bu. In the world's visible supply, shown by Bradstreet, and the market eased off in consequence. The trading was rather quiet the latter part of the session, but a steady tone prevailed, Dec. closing 15c higher at 756,500 bu. against 1,200,000 bu. a year ago. Minneapolis and Duluth reported receipts of 1,157 cars, which, with local receipts of 16 cars—4 of contract grade—made total receipts for the three points of 1,232 cars, against 633 cars last week and 1,427 cars a year ago.

CORN. CORN.

CORN.

Corn prices followed wheat in its upward tendency early in the day and the market ruled strong, with considerable covering by shorts. An improved shipping demand, together with light country demands, were responsible for much of the strength, and reports of damage by frost in Nebraska helped to create the builtsh sentiment. The weekly Government report was decidedly bearish and caused considerable selling, which resulted in a loss of most of the early gain. After selling between 45% and 46% these closed 48% inhigher at 46% Local receipts were 568 cars, with 30 of contract grade.

OATS. OATS.

OATS.

Oats were firm early in the session, due largely to the strength in other grains, and the market received fair support from brokers. Later, however, there was considerable selling by commission-houses and a reaction followed. Dec. closed with a gain of 160 ct at 354,0354c, after selling between 354c and 35c. Local receipts were 160 cars.

With the exception of Sept, pork and lard, the provision market ruled firm on a good demand from brokers. An advance of 5c in the price of hogs, with light receipts at the yards together with the firmness in corn, gave a better tone to prices, but trading was light, with offerings scattered. Oct. pork closed 15c higher at \$11.90, Oct. lard up 5c at \$7.80, while

SUMMARY OF ST. LOUIS MARKETS

lative interest caused a sharp reversal in the local grain market yesterday. Buying was brisk at the opening and, while the total volume of trading was not extremely heavy, there was enough to keep values on the upturn throughout the session. The weekly Government weather statement said that there had been some damage to wheat in the shock, especially in the northern portions of the belt, though the outlook in most sections was promising. Foreign markets opened firm and, after selling off, closed fairly strong. There was an improved export demand and the cash inquiry was better than it had been for several days. Local and primary receipts were heavy and Bradstreet's reports showed an increase in the stocks affoat. There were no new reports of shipments to Europe from other wheat-producing countries.

Corn had little independent strength, but held up well in line with wheat. Receipts were heavy and weather conditions were generally favorable. Most of the buying came from shorts who feared the effect of lower temperatures.

Dec. wheat opened 11-6c up and closed %6%c up. Dec. corn opened 1/2c up and closed 1/2c up.

Dec. oats closed unchanged. Receipts of produce were fairly large and prices of fruits and vegetables were

Local securities were well taken on offers. Transit sold lower and United Railways preferred held firm. Yesterday's bank clearings were \$8,063,593, balances \$782,890. Discount rates were

steady between 5 and 6 per cent. Spot cotton was unchanged in the local market.

GRAINS SHARPLY HIGHER

WEATHER NEWS IS MAINLY FAVORABLE.

Corn Follows Wheat on Upturn Despite Large Local Receipts.

vesterday's market. Both wheat and corn felt the effect of renewed outside interest, though conditions calculated to govern values were not materially changed. The weekly Government report was mildly bullish as to the outlook in the Northbetter export and cash demand for all grains. Buying was brisk in the first hour. With the exception of Minneapolis outside

Bradstreet's reports the available supply of wheat east of the Rockies for the past week at 2.967,000 bu, increase, and stocks in and affoat for Europe increased 4,700,000 bu, making the world's visible supply increase 7.667,000 bu., against an increase of 5,000,000 bu. in 1902.

Dec. wheat opened 1-16c up and sold at: fic. \$19834c. \$74c. \$74c. \$74c \$74c \$74c \$54c, \$74c, \$74c. \$74c, SP₂C, SP₂CSS₂C.

Though weather conditions were favorable and receipts were rather large, corn sold higher. In line with wheat. The market had been considerably oversold and professionals and scalpers took all offers on the downturn.

Bradstreet's report the available supply of corn east of the Rockies for the past week 1,212,009 bu., increase, against an increase of 1,049,000 bu. in 1912.

Dec. corn opened Me. up and sold at

Dec. corn opened 1/c up and sold at: 474/94214c, 474c, 454c, 454c,

Dec. com opened ac up and son at:
